

Indian Institute of Foreign Trade, New Delhi

POST GRADUATE DIPLOMA PROGRAM

IN

INTERNATIONAL TRADE

FOR

PARTICIPANTS FROM

CLMV COUNTRIES

About the Programme

India's trade relation with Cambodia, Laos, Myanmar and Vietnam (CLMV) countries has immense potential. It is important to develop connectivity and economic integration with these regions. India's trade with the CLMV countries is over USD 11,000 million. A number of steps have been taken to develop ties with these countries like the tri-lateral highway, The Act East policy and port connectivity. These efforts will help in boosting two way trade between India and the 4 countries. Recently, the Cambodian Minister Sun Chanthol also pointed out that it is important to share the best-practices and strengthen businesses ties between the countries.

Keeping these factors into consideration, Indian Institute of Foreign Trade would like to propose a Diploma Programme designed especially for delegates from these countries. The objective of the programme is to inculcate amongst the delegates the importance of trade, investment and business across the four countries. The programme is focused on providing a holistic approach towards trade and investment procedures and current developments. The programme also focuses on regional integration and the manner in which it is related to the disciplines of WTO. The emergence of Trade Blocs has led to changes in the international trade regime. The programme also throws light on Trade in Services. A cross country comparative approach for enhancing trade has been introduced in the programme. The programme focuses on Multi Regional Agreements and their impact on Nation building. In recent years, Global Value Chains have gained momentum and thus it becomes important to assess their importance as well as implications on trade between countries.

Learning outcomes

After completing the course, the participant will be able to:

- Understand the policy interface between national governments and their regional and multilateral trading partners
- Analyse each country's Foreign Trade Policy in the Global Context
- Evaluate Investment prospects and policy measures
